Freeze Frame: Image displayed will stay projected when "FREEZE" is selected. When pressed again, projector will display the new live current view.
Focus– or Focus+: Manual focus
AF: Auto focus
Extern MENU: Unassigned

Teaching Station: Weniger 116

Choosing a SOURCE to Display

The SOURCE button allows you to select the device you wish to use with the projector.

Computer on podium (monitor is the computer. ON/OFF button is on the backside lower left).

Document Camera/Visualizer (overhead camera to view 2D or 3D objects).

VGA Connecting your personal laptop, use VGA cable from CABLE CUBBY directly behind Monitor/Computer. Adapters to VGA or DVI are not provided.

DVI Connecting your personal device, use DVI cable from CABLE CUBBY directly behind Monitor/Computer. Adapters to VGA or DVI are not provided.

Blu-Ray Player (remote control is required to operate player).

AUDIO Controls

Select the AUDIO button from the main menu to access the audio controls for computer and microphone volume.

If there is no sound, make sure MUTE button has not been selected. From here you can control the speech or playback volumes using the buttons for each.

SCREEN HEIGHT Controls

Select the SCREEN button from the main menu to access controls that allow you to raise or lower the projector screen. Switch is on the wall.

Right Screen Controls
Raise
Stop
Lower

Left Screen Controls
Raise
Stop
Lower

PROJECTOR Display Options

Select the PROJECTOR button from the main menu to access options that affect what your audience is able to see on the projector screen.

Blank Image: Allows you to show a blank screen to the audience on the projector. You can still see and use your device, the audience cannot.

Freeze On: Freezes the image on the projector. You can still see and use your device, the audience only sees the frozen image.

Image Normal: Reverses the Blank Image button. Audience can now see what is displayed on your device.

Freeze Off: Reverses the Freeze On button. Audience can now see a live image of what is displayed on your device.

DOC CAM Controls

From the main menu, select the SOURCE button, then from the source menu select the DOC CAM button.

LOGOUT Control

Logging out of the Crestron controller is important to allow the equipment properly to cool down for the next user.

Are you sure you want to log off?
Yes   No

One moment please while equipment powers down.
Progress

RESTARTING Computer

Restarting the computer puts the computer back in a ready state for next lecturer.
