Focus- or Focus+: Manual focus
AF: Auto focus
Extern MENU: Unassigned

Do NOT remove the computer cables
Teaching Station: Weniger 151

Choosing a SOURCE to Display
The SOURCE button allows you to select the device you wish to use with the projector.

- Computer on podium (monitor is the computer. ON/OFF button is on the backside lower left).
- Connecting your personal laptop, use VGA cable from CABLE CUBBY directly behind Monitor/Computer. Adapters to VGA or DVI are not provided.
- DVD Player (remote control is required to operate player).

**AUDIO Controls**
Select the AUDIO button from the main menu to access the audio controls for computer and microphone volume.

- If there is no sound, make sure MUTE button has not been selected. From here you can control the speech or playback volumes using the buttons for each.

**SCREEN HEIGHT Controls**
Select the SCREEN button from the main menu to access controls that allow you to raise or lower the projector screen. Switch on wall.

- **Blank Image:** Allows you to show a blank screen to the audience on the projector. You can still see and use your device, the audience cannot.
- **Freeze On:** freezes the image on the projector. You can still see and use your device, the audience only sees the frozen image.
- **Image Normal:** Reverses the Blank Image button. Audience can now see what is displayed on your device.
- **Freeze Off:** Reverses the Freeze On button. Audience can now see a live image of what is displayed on your device.

**PROJECTOR Display Options**
Select the PROJECTOR button from the main menu to access options that affect what your audience is able to see on the projector screen.

- **Blank Image:** Allows you to show a blank screen to the audience on the projector. You can still see and use your device, the audience cannot.
- **Freeze On:** freezes the image on the projector. You can still see and use your device, the audience only sees the frozen image.

**DEMO CAM Controls**
From the main menu, select the SOURCE button, then from the source menu select the DOC CAM button.

- **Zoom:** controls the size of the image. The image can be expanded or shrunk.
- **White Balance:** adjusts the white balance of the image. This can help adjust the color temperature of the image.
- **Iris:** controls the brightness of the image. The iris can be opened or closed to adjust the brightness.

**DVD/VHS/BLU-RAY Controls**
From the main menu, select the SOURCE button, the select DVD or VHS source. Your projector will display from this device and the control panel will appear on the touch screen (you will need to remote to control the DVD player, however).

**LOGOUT Control**
Logout of the Crestron controller is important to allow the equipment to cool down for next lecturer to have equipment available.

**RESTARTING Computer**
Restarting the computer puts the computer back in a ready state for next lecturer, if you only logout this can make the next presenter delayed as the system takes fair amount of time to reboot.
