This is a QR (Quick Response) code. Put a QR scanner on your device (free) and scan the boxes on this newsletter for relevant information.

Accessibility Check is the latest tool in Canvas. It gives instructors a way to scan course sites, identify potential accessibility problems, and quickly fix them.

BOX is OSU’s cloud-based unlimited data storage which you may access anytime, anywhere, on any device to organize your data and share with others.

Kaltura is Oregon State University’s online media platform. It allows you to upload video and audio and share it publicly or privately, in Canvas, or anywhere else you choose.

Blank your slides in PowerPoint using the “B” key. This will direct attention to you and the point you make, then select “B” again reveal your next slide.

Student Multimedia Services provides equipment, support, and training for all classwork media projects.

Is there a technology or idea that you want to explore for use in teaching and learning? Bring your dreams to Technical Services and Technology Across the Curriculum for inventive consultation: ingenuity@oregonstate.edu

By walk-up (201 Milne) or telephone (541.737.8787) OSU’s Service Desk is dedicated to supporting you for general computing, technology, applications and security of personal information.
Did you know that Kaltura allows you to add quizzes to your videos? And the results of those quizzes can be sent to your Canvas grade book.

Instructors using clickers need to update to Turning’s new TP8 software. Interested in exploring interactive response technologies?

Presentation slide text must be large and clear enough for all learners to read. 24 point font is the lowest you should go. Test your slides in a classroom for readability.

Turnitin is a tool for students to improve their writing through empowering original thinking. Turnitin and let’s get writing!

The Learn@OregonState ecosystem helps you get the most out of your learning tools.

Classroom Technology supports more than 400 OSU learning spaces and the people who teach and learn in them. Pick up the help phone in your classroom to reach us.

Media Services provides production services for courses at Oregon State University, including distance education and recording for online review.

32 OSU learning spaces are equipped with Lecture Capture to record media projected along with audio of the lecture. The resulting videos may be accessed by students via Kaltura and Canvas.
