Mobile Internet Service: SIM and assisted/upgrade support charges may be required. Taxes approx. 6–28% of your monthly bill. Partial megabytes rounded up. Full speeds available up to monthly allotment, including tethering; then slowed to up to 2G speeds for rest of billing cycle. Certain uses, e.g., some speed test apps, may not count against high-speed data allotment or have speeds reduced after allotment reached. U.S. roaming and on-network data allotments differ; see your selected service for details. Simple Global: Usage may be taxed in some countries. Standard speeds approx. 128Kbps without Plus; with Plus approx. 256 Kbps. Not for extended international use; you must reside in the U.S. and primary usage must occur on our U.S. network. Data Stash: Up to 20 GB of on-network data from past 12 months carries over to next billing cycle for as long as you maintain qualifying postpaid service. Coverage not available in some areas. Network Management: Service may be slowed, suspended, terminated, or restricted for misuse, abnormal use, interference with our network or ability to provide quality service to other users, or significant roaming. On-device usage is prioritized over tethering usage, which may result in higher speeds for data used on device. See T-Mobile.com/OpenInternet for details. See Terms and Conditions (including arbitration provision) at www.T-Mobile.com for additional information.
